

Fact sheet REPORT ON PUBLIC LAND MOBILIZED FOR INVESTMENT

MOBILIZATION OF STATE-OWNED PRIVATE PROPERTY FOR THE FIRST HALF OF THE 2025 FINANCIAL YEAR

I. LAND MOBILIZATION IN SUPPORT OF PRODUCTIVE SECTORS

1. Overall data

In the first half of fiscal year 2025, 148 projects involving land belonging to the State Private Domain were approved, covering a total area of approximately 20,771 hectares, with a projected investment of more than MAD 27,948 million, corresponding to the creation of 9,514 jobs in the long term.

2. Breakdown by income bracket

In the first half of fiscal year 2025, more than 87.15% of projects were approved under the Decentralized Investment Management program, for a total budget of approximately MAD 26,633 million, creating an expected 9,494 jobs.

Mode	Number of projects	Area Mobilized	Projected Investment (dh)	Jobs
Decentralized Investment Management	141	18 102ha 12a 55ca	26 633 524 141	9 494
Agreed Plan	1	32ha 00a 00ca	275 000 000	
Not covered by insurance	6	2 637ha 42a 78ca	1 040 000 000	20
Grand total	148	20 771ha 55a 33ca	27 948 524 141	9 514

3. Breakdown by method of land mobilization

- ▶ The mobilization of State-owned land during the first half of fiscal year 2025 was mainly carried out through leasing. In fact, this method accounted for more than 84.24% of the total area allocated during this period.

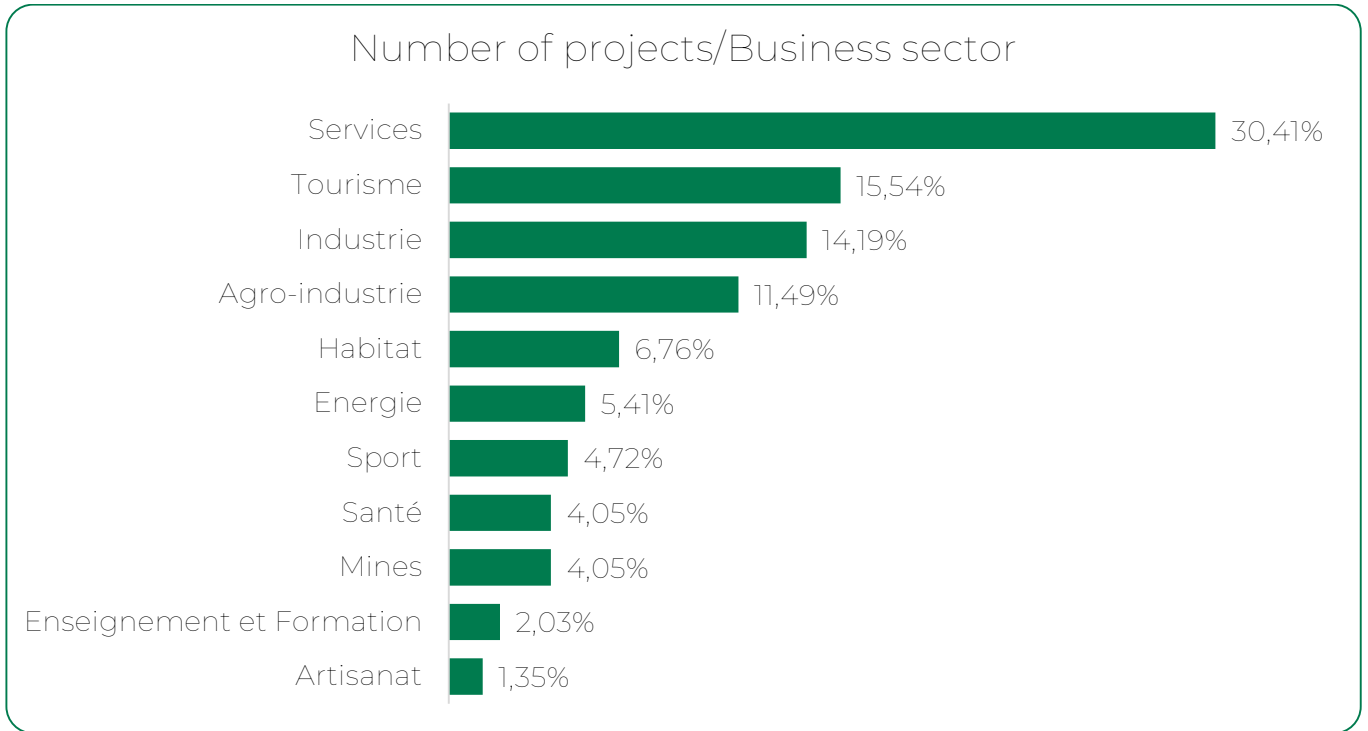

- ▶ A sectoral analysis of this mobilization highlights the predominance of the energy sector, which accounts for approximately 94.8% of the area mobilized through leasing. This concentration confirms the priority given to this strategic sector in public policy, particularly through support for renewable energy projects.

4. Breakdown by sector of activity

In terms of sectors, the breakdown of approved applications by number of projects shows that in the first half of fiscal year 2025:

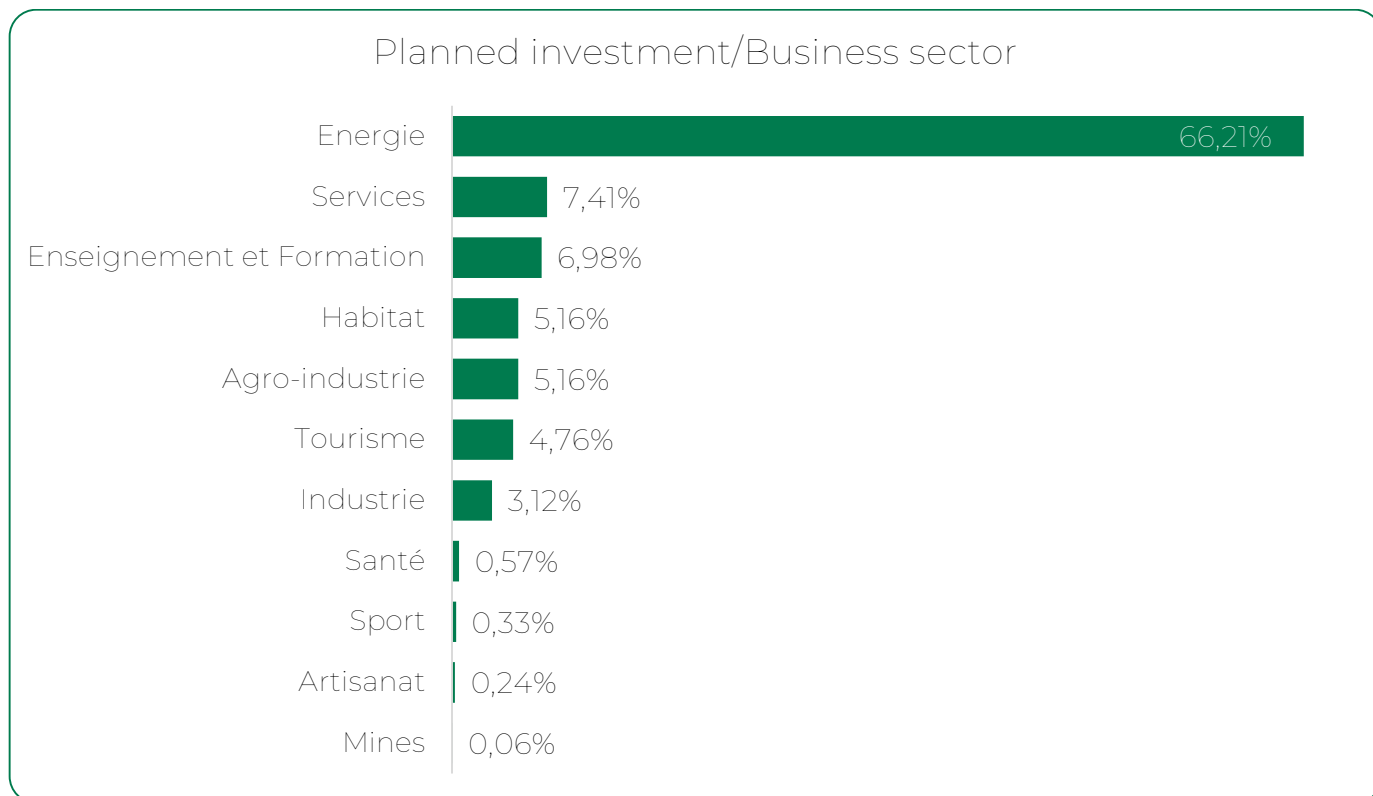

- More than 71% of projects are concentrated in four (4) sectors of activity (services, tourism, industry, and agro-industry).

- Approximately 80% of the land area mobilized is dominated by the energy sector.

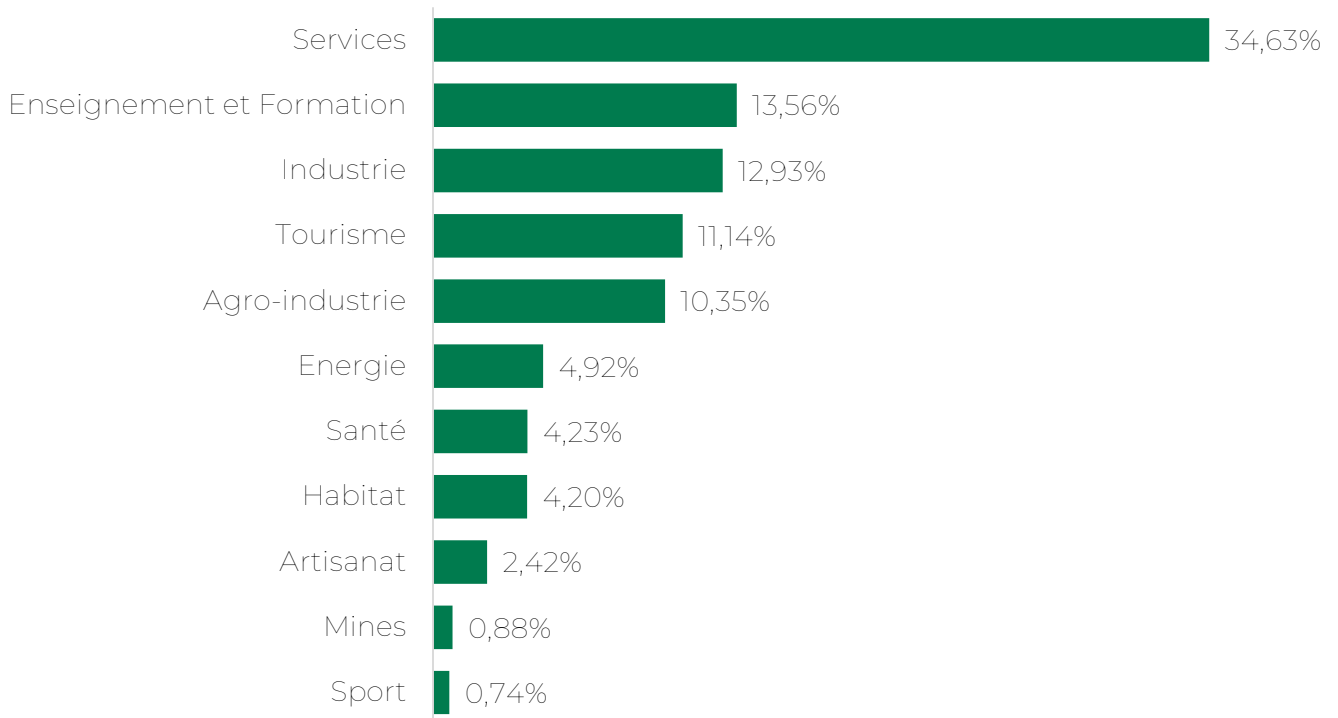

- ▶ More than 66% of investments attracted by the energy sector.

- ▶ More than 82% of the jobs to be created are in the services, education and training, industry, tourism, and agribusiness sectors.

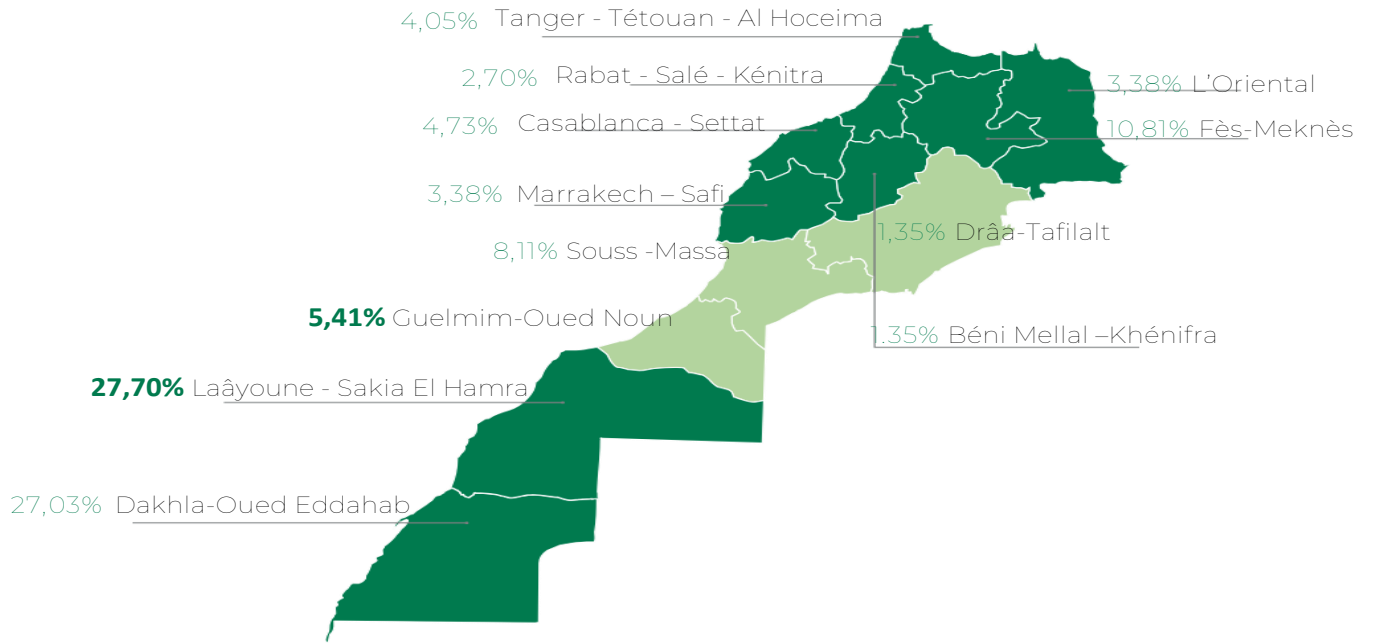

Jobs/Sector of activity

5. Regional variation

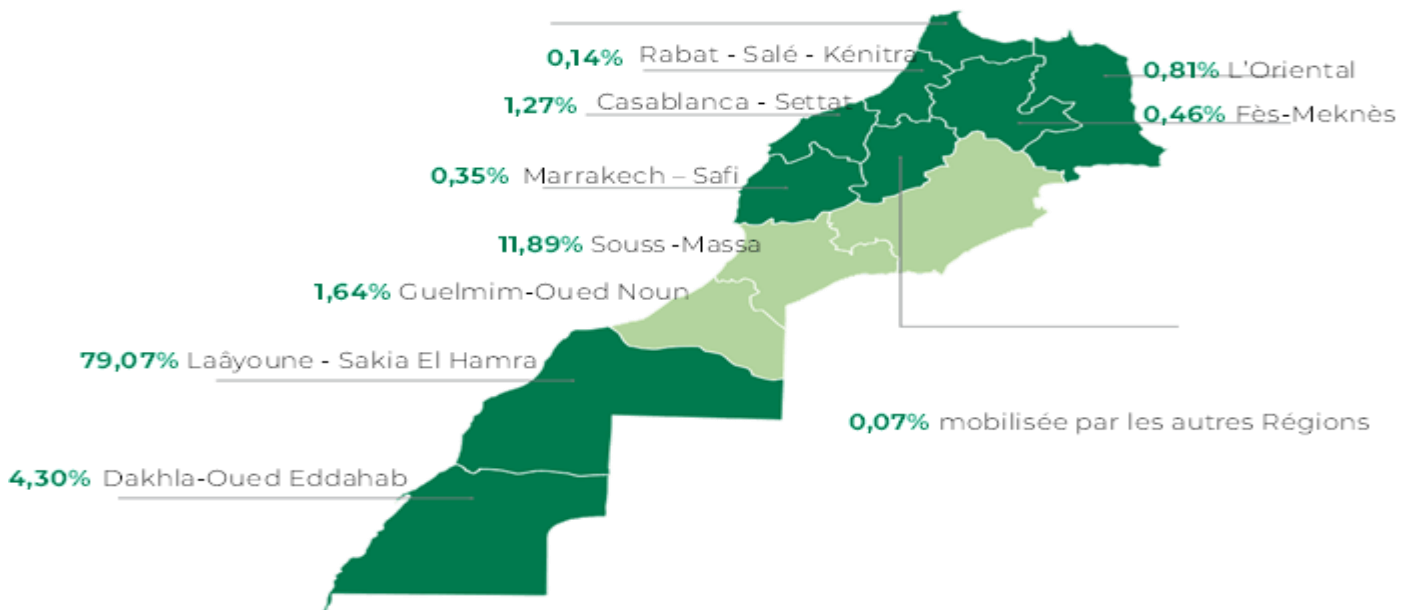

- The regional breakdown of projects approved for the first half of fiscal year 2025 shows that the regions of Laâyoune-Sakia El Hamra, Dakhla-Oued Eddahab, and Fès-Meknès accounted for 65.54% of the projects approved.

Number of projects

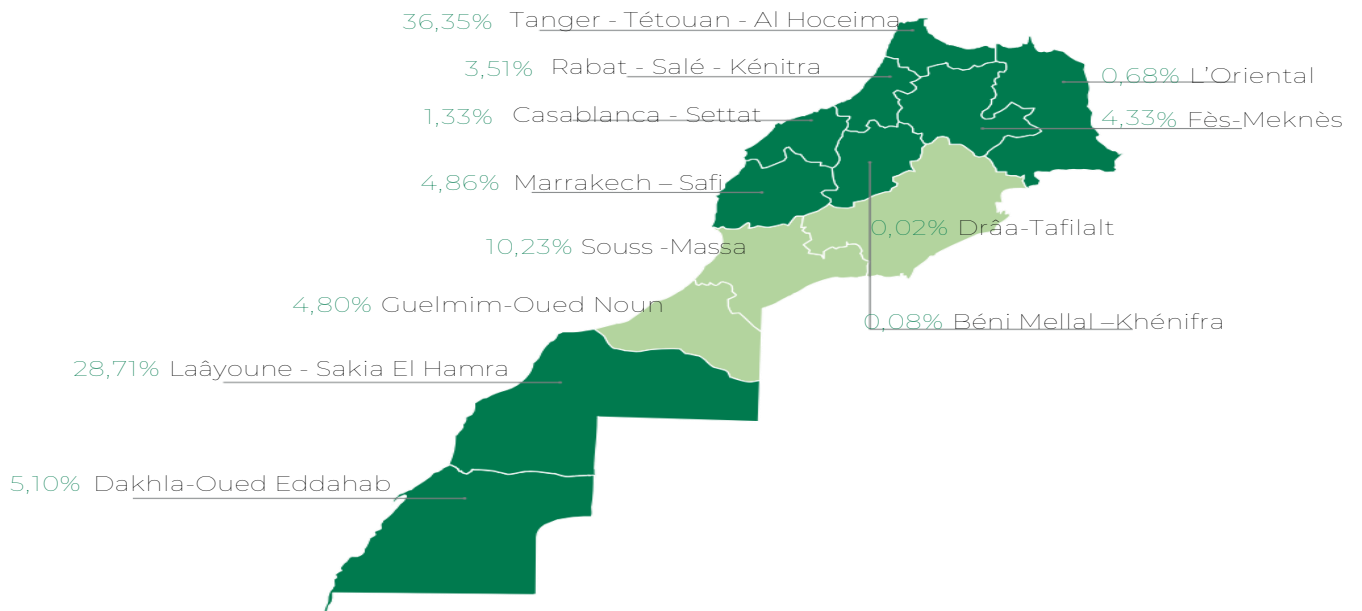

► Analysis of the regional distribution of land mobilized in the first half of fiscal year 2025 reveals a high concentration in the Laâyoune-Sakia El Hamra region, which alone accounts for more than 79.07% of the total area allocated.

Area mobilized

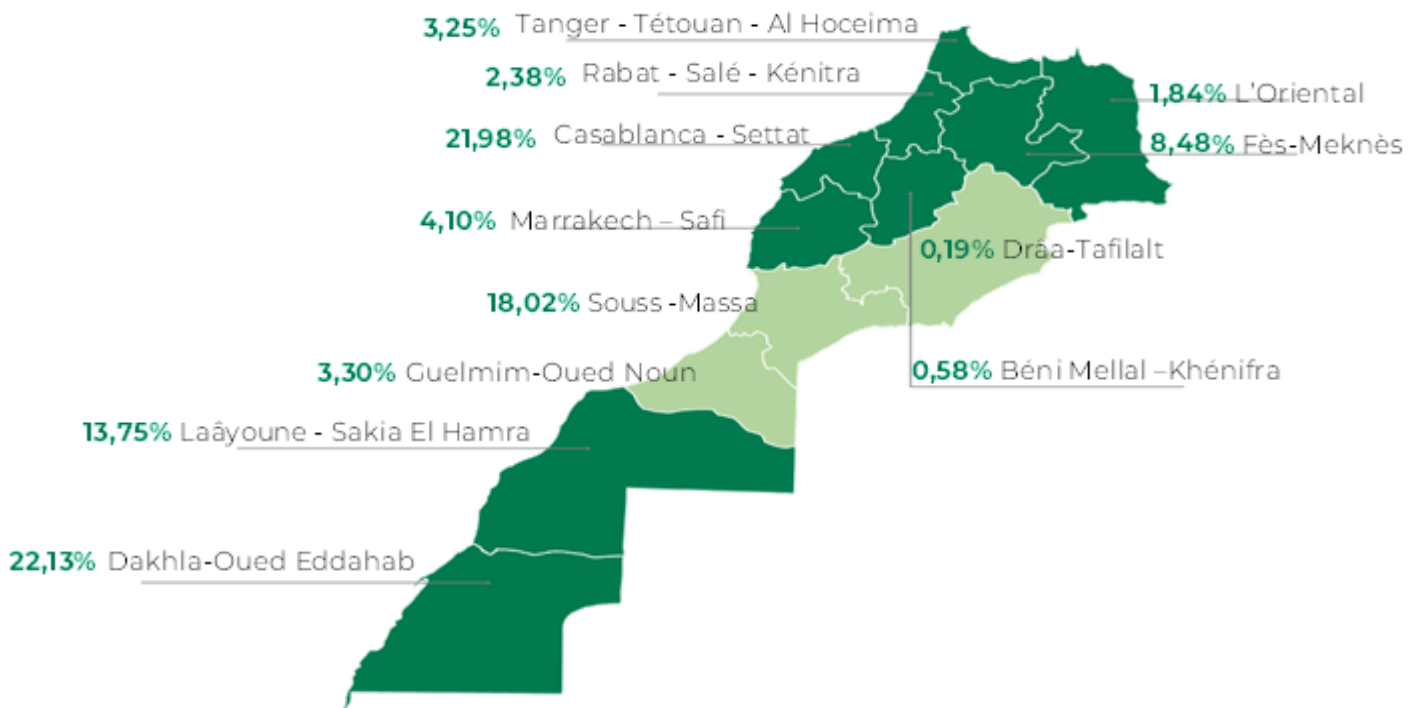

► In terms of investment, the Tangier-Tetouan-Al Hoceima and Laayoune-Sakia El Hamra regions together account for 65.06% of the total volume committed, reflecting their attractiveness to project developers.

Projected investment

► Furthermore, in terms of employment prospects, four (4) regions alone account for nearly 75.87% of the jobs to be created. These are the regions of Dakhla-Oued Eddahab, Casablanca-Settat, Souss-Massa, and Laâyoune-Sakia El Hamra, confirming their role in the national drive to create economic and social opportunities.

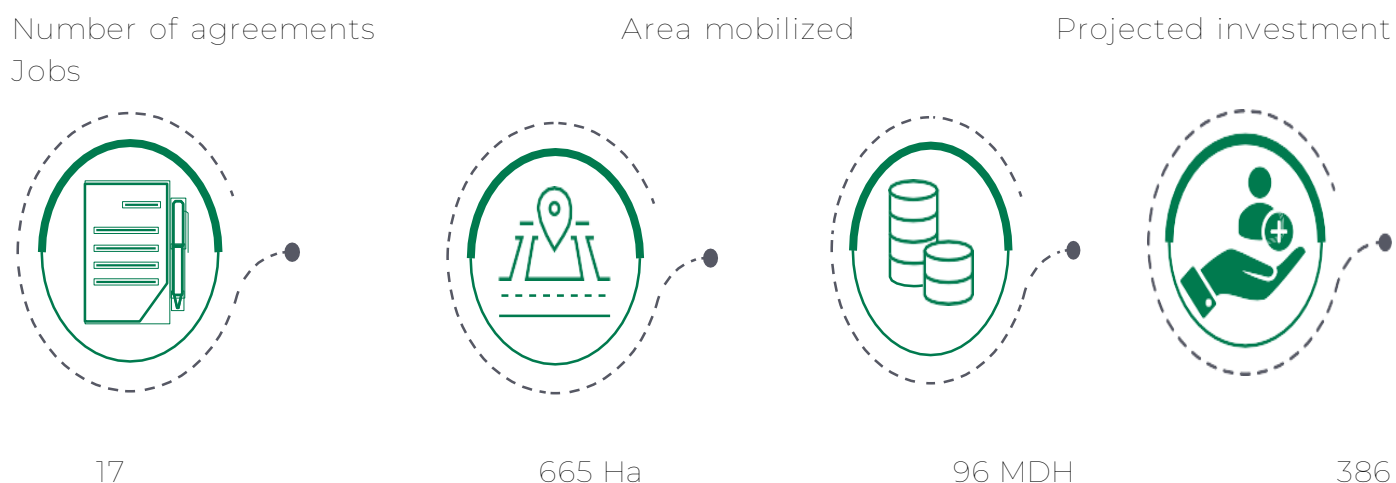

Jobs

II. LAND MOBILIZATION IN SUPPORT OF THE AGRICULTURAL SECTOR

1. Overall data

During the first half of fiscal year 2025, 17 agreements were signed under the Agricultural Partnership, following calls for tenders organized for this purpose, covering an area of more than 665 hectares, with a total investment exceeding MAD 96 million, corresponding to the creation of 386 jobs.

Region	Established conventions	Area	Investment amount (dh)	Jobs
Fès-Meknès	6	334ha85a37ca	34 569 244	182
Rabat-Salé-Kénitra	6	183ha44a74ca	27 559 355	59
Béni Mellal-Khénifra	4	106ha98a41ca	5 474 120	29
Laâyoune -Sakia El Hamra	1	30ha01a37ca	28 616 420	116
Total Sum	17	665ha29a89ca	96 219 139	386

2. Breakdown by sector

During the first half of fiscal year 2025, the olive growing sector alone benefited from approximately 89.90% of the total area mobilized for investment projects under the Agricultural Partnership.
